

Asia Green Real Estate becomes the first GRESB Partner in Indonesia

Through this partnership, Asia Green Real Estate will actively support the expansion of GRESB initiatives in Indonesia, fostering greater ESG adoption in the region. Asia Green Real Estate aims to provide a range of services to support companies within the real estate industry in completing their GRESB Assessments. Our offerings will include consulting, advisory services, and ESG data management to help fund managers enhance their sustainability performance. While the partnership is focused on the Indonesian market, our expertise extends globally, allowing us to support companies in various regions as they navigate their sustainability journeys.

Since 2020, Asia Green Real Estate has upheld the highest ESG standards, certifying its portfolio with GRESB. In 2025, the Asia Green Real Estate Fund's investments have been awarded the GRESB Global Sector Leader designation and a 5-Star Rating for the third consecutive year. Today, we are proud to be the first official GRESB partner in Indonesia, marking a milestone in our commitment to sustainable real estate.

"As a long-time participant and leader in the GRESB Assessment, we are excited to leverage our experience to help other companies strengthen their ESG strategies," said Alex Buechi, Managing Partner at Asia Green Real Estate. *"Through this strategic partnership with GRESB, we will provide the necessary tools, guidance, and expertise to elevate sustainability performance across the real estate sector, driving meaningful impact both in Indonesia and beyond."*

"Asia Green Real Estate's commitment to sustainability and deep industry expertise make them a valuable partner in advancing sustainability standards in Indonesia. Their consulting services will provide essential support for companies looking to strengthen their ESG performance and successfully complete GRESB Assessments" said Trey Archer, Business Development Director at GRESB.

About GRESB

GRESB is a mission-driven and industry-led organization that provides actionable and transparent environmental, social, and governance data to financial markets. Established in 2009, GRESB has become the leading sustainability benchmark for real estate and infrastructure investments across the world.

About Asia Green Real Estate
