

Alex Büchi
Partner
Asia Green Real Estate

March 4, 2020

Dear Alex,

This letter confirms that Asia Green Real Estate is a partner of IFC's EDGE Green Buildings Market Transformation Program and holds the distinction of a global EDGE Champion. The distinction of EDGE Champion is given to Asia Green Real Estate as a recognition of your ongoing collaboration with IFC in pursuit of our shared aspirations to move the construction industry on to a lower carbon, more resource-efficient path through certified green buildings.

EDGE Champions commit to significant promotion of the EDGE software, standard, and certification system in their operations. In addition, EDGE Champions commit to promoting EDGE in conferences, seminars and other events, as well as through their own communications channels.

An innovation of IFC, EDGE ("Excellence in Design for Greater Efficiencies") is an online platform, a green building standard and a certification system for over 140 countries. The EDGE application helps to determine the most cost-effective options for designing green within a local climate context. EDGE can be used for buildings of all vintages, including new construction, existing buildings and major retrofits. EDGE is part of a holistic strategy to steer construction in rapidly urbanizing economies onto a more low-carbon path. It's an example of the World Bank Group's commitment to creating markets that are competitive, sustainable, inclusive and resilient. More information about EDGE is available from our website at www.edgebuildings.com.

For additional questions about IFC's collaboration with Asia Green Real Estate, any interested parties can reach out to me at rmusic@ifc.org or edge@ifc.org.

Sincerely,

A handwritten signature in black ink that reads "Rusmir Musić".

Rusmir Musić
EDGE Global Business Development Lead
IFC, The World Bank Group
